**Vincitore 2020/21- Italia - “ La migliore commercialista dell’anno “**

## BEST IN ACCOUNTANTS OF THE YEAR

Tina Dott.ssa Gulli

Owned by Tina Gulli, The Gulli Studio is an accounting firm that provides business and accounting assistance with professional advice in the fiscal, administrative and tax fields in Orbassano and throughout Turin. The studio specialises in budget analysis and the drafting of financial statements, financial cost analysis, investment analysis, and form preparation. In addition to accounting and auditing, the firm can assist with data processing, business consultancy and the management of contributions. The firm aims to help clients in all phases of business to reach new heights through its strategic accountancy and money management measures such as risk diversification.

The judges admired Tina for creating an accountancy service that has proven it cares about its client's money, and uses a range of highly strategic and effective methods to ensure stability and success. One such strategy is internationalisation of investment, which dilutes a company's dependence on a single market, allowing it to remain steady through periods of market instability. It is, therefore, clear that Tina has exceptional knowledge and skill when it comes to increasing her client's monetary opportunities and professional partnerships without compromising their financial security.
